Subject: Potential Shelter Overflow due to Hoarding Case

A hoarding situation in Cohasset, Massachusetts, has been discovered, and additional planning is needed to distribute all 100 cats that now need shelter.

While there are several shelters in the South Shore area that can take in cats, there is not enough space available to support all 100. For this situation, I suggest we reach out to more distant shelters throughout Massachusetts and organize volunteer drivers to move five to 10 cats at a time.

Successfully planning and helping with the cats' transportation would improve BARC's reputation and help us form connections with Massachusetts shelters.

Please contact me so we can plan a meeting.

Thank you very much.
